We export in bulk to all leading markets in the world especially USA, Japan, Switzerland, Morocco, Canada, India and Sudan. Our quality control measures are designed to ensure that we deliver the quality products to our clients.

We also offer toll processing services to our registered coffee exporters and traders mainly by drying, precleaning, grading, colour sorting and packaging as per their clients specifications.

We believe the role we play is crucial in maintaining the deliciousness of coffee through the whole process of "from tree to the cup."
