

Exciting Career Opportunities

Chemonics International, a U.S.- based International Development Consulting Firm, seeks technical experts for the USAID/Uganda Integrated Community Agriculture and Nutrition (ICAN) program. The program will enhance the resilience of vulnerable households by increasing economic opportunities for poor households, improving nutrition with a focus on women and children, and strengthen community and local governance. We are looking for individuals who have a passion for making a difference in the lives of people around the world. Program positions include;

1. DEPUTY CHIEF OF PARTY

- Serve as an engaged leader of the project's technical work, overseeing components of the project's activities and assisting with the management of project technical staff.
- Master's degree in International Development, agriculture, economics, public health, nutrition, or related area of study or equivalent work experience.
- Five (5) years or more of progressively responsible work experience in managing or implementing development programs preferably in Africa.
- Knowledge of relevant technical areas such as agriculture and nutrition
- English language proficiency in speaking, reading, and writing are required.

2. MONITORING, EVALUATION, AND LEARNING ADVISOR

- Establish and manage a monitoring and evaluation system to track progress towards meeting program/contract deliverables, results, indicators and targets.
- Analyze data and generate reports to contribute to reporting and project communications
- Master's degree or foreign equivalent in Business Administration or related area of study or equivalent work experience. Specialized training in M&E required.
- Seven (7) years of more of progressively responsible work experience in managing complex projects. At least five (5) years of M&E work at the supervisory level.
- Knowledge of agriculture, nutrition, and systems M&E preferred.
- English language proficiency in speaking, reading, and writing are required.

3. FINANCE, COMPLIANCE, AND ADMINISTRATION DIRECTOR

- Establish internal control, accounting, and financial reporting protocols
- Oversee accounting, disbursement, and budgetary matters and operations staff
- Comply with USAID & Chemonics regulations. Assure timely reporting to USAID.
- Minimum of five (5) years of progressively responsible experience in financial analysis, accounting, or auditing, preferably with an international organization or accounting firm.
- English language proficiency in speaking, reading, and writing are required.

Chemonics is also recruiting for a range of specialists including the following disciplines:

- Agronomist
- Agriculture Marketing Specialist
- Economic Development Specialist
- Nutrition Specialist
- Reproductive Health & Family Planning Specialist
- Education/Life Skills Specialist
- Water, Sanitation, & Hygiene Specialist
- Local Governance Specialist
- Gender & Social Inclusion Specialist
- Training Specialist
- Behavior Change Comms Specialist
- Finance, Grants, Operations, Comms
- Access to Finance Specialist
