

PRESS RELEASE

CERTIFIED COFFEE SEED GARDENS FOR 2017/18/19 COFFEE YEARS

The Ministry of Agriculture, Animal Industry and Fisheries (MAAIF) through the Uganda Coffee Development Authority (UCDA) and the National Coffee Research Institute (NaCORI) has completed re-assessment of coffee seed gardens. This is therefore

to inform the general public that the seed producers listed below whose seed gardens complied with the requisite requirements for seed production, are authorized to process and supply elite seed to UCDA and private coffee nursery operators for purposes

of propagating quality coffee planting material for farmers.

To ensure that all coffee planting material are generated from coffee seeds sourced from authorized seed gardens, the private

coffee nursery operators will be required to obtain the coffee seed purchase receipts from the authorized seed suppliers for all coffee seed purchases. The seed purchase receipts will be required during the nursery certification process.
