

**ERNEST COOK
ULTRASOUND
RESEARCH AND
EDUCATION INSTITUTE.**

CALL FOR APPLICATIONS

Ernest Cook Ultrasound Research and Education Institute (ECUREI) is a unique Degree awarding Institution for higher learning specializing in Medical Imaging, Biomedical Engineering training and other medical related courses like physiotherapy plus medical related programs in humanities; i.e Early Childhood Health & Development and Health Administration and Management. It is recognized and accredited by the National Council for Higher Education (NCHE) as well as the Ministry of Education and Sports under the category of Other Degree Awarding Institutions.

The Academic Registrar **ECUREI** hereby invites interested applicants for its degree and diploma courses for the Jan, Feb/ March/August intakes 2019 in the following disciplines

Masters Degree Programs

- **Master of Medicine in Radiology (M.Med.Rad)** 4 years requirements at least a Degree in Medicine & Surgery. Intake in March
- **Master of Medical Imaging (MMI)** 2 years requirements at least a Degree in Radiography intake in March and August.
- **Master of Diagnostic Ultrasound (MDU)** 2 years requirements at least a Degree in Sonography intake in March and August.

Bachelors Degree Programs

- **Bachelor of Science in Healthcare Administration and Management (Bsc. HAM)** 3 years (weekend) requirements at least two Principle Passes in any two best done subjects at A Level or a Diploma in any related field. **Intake January, May and September**
- **Bachelor of Science in Early Childhood Health and Development (Bsc ECHD)** 3 years (weekend) requirements at least two Principle

Passes in any two best done subjects at 'A' Level or a Diploma in any related field. **Intake, January, May and September.**

- **Bachelor of Medical Imaging (BMI)** 4 years (day and evening) requirements at least two Principle Passes in Physics, Biology Chemistry with Biology as an essential subject or a Diploma in a related field. Intake March and August. **N.B** There is a 6 months physics bridging course for those who failed or did not take physics at A, level.
- **Bachelor of Diagnostic Ultrasound (BDU)** 3 years (day and evening) requirements at least two principle passes in Physics, Biology and Chemistry with Biology as an essential subject or a Diploma in a related field. **Intake March and August. N.B** There is a 6 months Physics bridging course for those who failed or did not take Physics at A, level.
- **Bachelor of Physiotherapy (BPT)** 4 years (day and weekend) requirements at least two Principle Passes in Physics Biology, Chemistry, Mathematics with Biology as an essential subject or a Diploma in any related field.

Intake March and August. **N.B** There is a 6 months physics bridging course for those who failed or did not take physics at A, level.

- **Bachelor of Biomedical Engineering (BBE)** 4 years (day only) requirements at least two Principle Passes in Physics, Mathematics, Chemistry or Certificate in Engineering.

Diploma Programs

- **Diploma in Biomedical Engineering (DBE)** 2 years (day only) requirements at least one principle pass at A- level or its equivalent in physics, mathematics chemistry or certificate in engineering. Intakes in **August and March**
- **Diploma in Medical Radiography (DMR)** 3 years requirements at least one principle pass at A level or its equivalent in Biology, chemistry or certificate in any medical field. **Intakes in August and March.**
- **Post Basic Diploma in X-ray Pattern Recognition (DPR)** 9months requirements at least a diploma in Radiography.

Intakes in August and March

- **Diploma in Early childhood Health and Development (DECHD)** 2 years (weekends) requirements at least one Principle Pass at A-level I or its equivalent n any best done subject at A Level or certificate in **ECD.**

Intakes in January, May and September

- **Diploma in Healthcare Administration and management. (Dip.HAM)** 2 years (weekend) requirements at least one princple pass at A-Level or its equivalent in any best done subject at A Level or certificate in a related field intake in January, May, and September.
- **Ordinary Diploma in Diagnostic Ultrasound (ODU) In affiliation with Thomas Jefferson University.** 6 months full time requirements at least a diploma in a related medical field intakes in January and July.
- **Physics Bridging Course (PBC)** 6 months full time requirements at least for those who didn't do physics or didn't pass it at A Level but are interested in pursuing the above courses intake are in **March and September.**

For more information:

UPCOMING COURSES

- **Bachelor of Science in Health Informatics** BSC. Health Informatics
- **Bachelor of Science in Clinical nutrition** BSC. Nutrition
- **Diploma in Clinical Nutrition.**
- **Post basic Diploma in Clinical Nutrition.**
