Hon. Mary Kitutu
State Minister for Environment

Mr. Alfred Okot Okidi
Permanent Secretary

BASTILLE DAY CONGRATULATORY MESSAGE

The Ministry of Water and Environment Congratulates the French Ambassador and the Government of France upon celebrating the French National Day. We pledge to work with you to reduce poverty through Bulk Water Supply for Multi-purpose use project.

The Government of Uganda received a Grant from Agence Francaise de Development (AFD) and part of the proceeds were availed for Project preparatory studies for Bulk Water Supply for Multi-purpose uses for Kanyaryeru, Sanga and Kikatsi in Kiruhura District.

The overall objective of the proposed project support is to contribute to poverty alleviation through enhancing production, competitiveness and

household incomes in rural areas and to improve food security.

Ministry of Water and Environment under Water for Production Department has planned to undertake detailed designs for Bulk Water Supply for Multi-purpose uses Scheme in Kiruhura District in FY 2017/18 and construction will subsequently follow in FY 2018/19.
