

# NATIONAL MEDICAL STORES EXHIBITS OF OPERATIONAL EXCELLENCE TO S

**Founded in 1993 by an Act of Parliament, NMS' mandate is to Procure, Store and Distribute Essential Medicines and Medical Supplies, primarily to Government health facilities.**

As part of its activities to mark 25 years of operations in Uganda, National Medical Stores (NMS) held a series of successful stakeholder engagements from 10-12 December, 2018, at its Head Office in Entebbe. The stakeholders included Women and Youth leaders, the medical and pharmaceutical fraternity, and religious leaders, with the latter taking part in a Prayer Breakfast led by His Grace, COU Archbishop Stanley Ntagali.

Activities included the guests being given a tour of the warehouse and cold-rooms, a health camp, and blood donation. Discussions chiefly centred on NMS' operations, and the various innovations that have seen the corporation set a number of benchmarks in medical logistics, including the global first of vaccine integration. Stakeholders were encouraged to play a role in improving health service delivery in Uganda, including promoting preventive health as a measure that can see the nation make overall gains in all sectors.

Archbishop Ntagali calls on all to stand against corruption in health facilities.

Dr. Ekwaro Obuku of the Uganda Medical Association joins in on the discussion.
