INTRODUCTION

The Uganda Women Entrepreneurship Programme (UWEP) is an initiative of the Government of Uganda that is aimed at improving access to financial services by Women and equipping them with skills for enterprise growth, value addition and marketing of their products and services. UWEP's objective is to empower Ugandan Women for economic development.

The Programme is designed to reach the unbankable, and especially rural women, who have for long been excluded by the conventional financia

Prior to implementation, all the beneficiaries receive basic training in Prior to implementation, all the observed was citatining in the areas of financial imanagement, procurement, group dynamics, and entrepreneurship and life skills. Further still, appropriate follow-up support by the relevant subject matter specialists is provided to all beneficiaries to ensure successful implementation of their enterprises.

TARGET BENEFICIARIES

The primary target beneficiaries of the Programme are women within the age bracket of 18-65 years. The assumption is that those beyond 65 years will be catered for under the Social Assistance Grants for Empowerment (SAGE) Programme. Since the Youth Livelihood Programme (YLP) targets young women aged 18 – 30 years (the Programme guidelines stipulate that 30% of the Youth Interest Group members should be female), the female youth already benefiting from YLP are not considered as beneficiaries for UMEP. The Programme as much as possible promotes the integration of the following categories of women as beneficiaries. Unemployed women, 'Unterable Groups e.g. Single young mothers, Widows and Gender-based Volience (GBV) survivors, Women with Disabilities, Women Inling with HIV/AIDS, Women hading households, Women sum developed, we will be the survivors of the programme as the programme as the survivors of the programme as the programme and the programme an

DEMOGRAPHIC DATA ON BENEFICIARIES.

Demographic data on UWEP beneficiaries is undertaken by analyzing a demographic data form filled in by the women expressing interest to access the fund.

The findings from this analysis reveal that some beneficiaries fall in multiple vulnerabilities. For example, one beneficiary may be a Single Parent who dropped out of School and has some form of disability, hence, such a single beneficiary will appear in three different beneficiary

Under UWEP, majority of the beneficiaries; 58.87% never had an opportunity to attend formal education, followed by those who dropped out of primary school; 23.43%. The special needs categories include youth with disabilities (7.5%). Gender Based Violence Survivors; 16.2%); timese living in Isular areas; 7% and those living in Isular areas. areas; 18.6%.
This implies that the Programme is achieving its target of reaching the most vulnerable women.

The repayment of the revolving fund is ongoing across the Country. Out of a total UGX. 8,710,321,031 expected to have been recovered to-date, UGX.7,065,84,946 has been recovered. This amount represents 81.2% of the total amount due to date. I'vo hundred twenty five (225) groups have to date IUIy paid up (100% Repayment).

BENEFITS OF THE PROGRAMME

The immediate benefits arising out of UWEP include the following:

(i) Wome Empowerment
Women have been able to access credit to establish their businesses at zero interest. In addition, the Programme has provided an opportunity to Women to start and grow their enterprises and provide self-employment opportunities. Women have been able to receive training to improve their business and how to manage them better. The Programme has provided a platform to inspire

and support women business ideas. The group approach has given Women an opportunity to improve knowledge and skill through mentoring each other. The greater involvement of the Women in mobilization, sensitization, prioritization and planning for their needs, implementation and mohioring and evaluation of Programme activities has created a sense of empowerment and confidence to take charge of their destiny. The skills provided through the basic training in financial management, entrepreneurship, business development, group dynamics and life skills, further strengthen the empowerment of the Women involved in the Programme.

(ii) Women Economic Engagement 103,770 Women in 8,247 projects are engaged in self-employment through vocational trades and income generating activities financed under UWEP.

(iii) Financial Inclusion

All the Women supported under the Programme, receive the funds through the Commercial Banks. A number of these Women groups had never had any dealings with the Banks before, but are now holding savings accounts in the Commercial Banks. This is a great achievement in the promotion of financial inclusion among the vulnerable Women.

(iv) Reduction of the Dependency Syndrome

neuturou ot the uependency Syndrome.

The revolving funds approach is making a significant impact in the mind-set of the Women by inculcating positive values of hard work for a living, as opposed of the non-sustainable quest for free things (nand-outs). The reports received from the groups indicate that Women have been able to contribute to the management of their homes and contribute to school fees of their children and improve the quality of life in the home.

(v) Acquisition of assets. Some beneficiaries have constructed permanent houses while majority bought goats, cows and household items like chairs, mattresses etc.

(vi) Improved income levels for members.

(vii) Creation of self employment, etc
