

# A one-stop centre for all construction materials

**R**oofings Group is the largest manufacturer of steel and plastic construction materials in East Africa. We offer a wide range of products that conform to the current ISO Standards and our quality offers long term benefits to consumers.

The steel products include plain galvanised and pre-painted coils and roofing sheets, hollow sections, mild steel plates, open profiles, barbed wire, razor wire and chain link, all widely used for domestic, commercial, public and industrial purposes.

The plastic products include PVC, HDPE & PPR for plumbing, electricity conduits and

sewerage pipes.

As for services, we promote partners in business by offering transport services and financing options especially for dealers so as to foster their growth. We also build confidence in the public by offering technical support and testing services to our customers.

Plastic products for plumbing and electricity

Ridge caps

Chain link fence

Ecotile iron sheets

Versatile iron sheets

Barbed wire
