## Knowledge and Skills for Service

**K**yambogo University is a unique university with a niche in engineering, vocational education, teacher education and special needs education. Since its inception in 2003, the University has continued to produce industrious engineers, teachers, and experts in special needs and vocational skills who have contributed to national development. Kyambogo University has the mandate to credit, supervise, develop the curriculum and assess the teachers at four levels, namely: early childhood, primary, secondary and tertiary teacher training. This makes Kyambogo a leading University in education in Uganda.

The University has a well-established governing Council, Senate and other structures that ensure high quality of output and service delivery taking into account integrity, equity and professionalism in all dealings and execution of the University's mandate.

The university aims at equipping each student with relevant knowledge and hands on skills required for enterprises and to excel in the world of work. The university provides a serene learning and working environment at campus with experienced and dedicated staff.

The University sits on Banda Hill and is one of Uganda's largest public Universities. Kyambogo University came as a result of a merger of the former Uganda Polytechnic Kyambogo (UPK), the Institute of Teacher Education, Kyambogo (ITEK), and the Uganda National Institute of Special Education (UNISE).

### VISION

To be a center of excellence in research & innovations, entrepreneurship development and income generation

### MISSION

To empower Kyambogo University to encourage research, innovation, practical work, support business startups and income generation.

### MOTTO

Knowledge and Skills for Service

### TREMENDOUS GROWTH OF KYAMBOGO UNIVERSITY

Kyambogo University has 6 Faculties and 2 Schools with about 30, 000 students on Campus and about 34,000 students in affiliated institutions. The Faculties and Schools include:

- Faculty of Engineering,
- Faculty of Science,
- Faculty of Vocational Studies,
- Faculty of Special Needs and Rehabilitation,
- Faculty of education,
- Faculty of Social Sciences,
- School of Management and Entrepreneurship, and
- Graduate School.

### INFRASTRUCTURE DEVELOPMENT IN THE UNIVERSITY

Government through the Higher Education Science and Technology (HEST) project have built a number of structures. These include: the Central Teaching Facility (CTF) which can seat about 3,500 students at the same time and this is a shared facility for teaching only. We have the multi-purpose science complex for laboratories for science education, we have the virtual library which is enhanced by ICT so that students can access books and journals without necessarily going to the library. We also have the Technical Teacher Education complex for skilling the youth in line with BTNET program of Uganda, we have new engineering laboratories and workshops and a new workshop for architecture and surveying. In addition to these new structures, all engineering laboratories, eight in total were renovated and are now equipped. In addition, the university council allocated funds for constructing the Central Lecture Block of four floors. Two are completed so far and there are two more floors to go. When completed, it will cost the university about sh16.6 billion and it will have a capacity of about 4,000 students.
