President of the Republic of Uganda,
H. E. Y.K. Museveni

National Forestry Authority reaffirms its commitment and calls upon all stakeholders to work together to achieve economic development through sustainable forest management.

Achieving an Integrated Forest Sector in the policy frame work is no easy task as we must balance the needs of the nation in the face of changing climatic conditions and associated impacts on demand for wood and wood products, energy needs, food security and the people displaced by weather related disasters.

We call upon all Ugandans to embrace the national tree planting days and at least plant a tree every year.

Our Vision: A sufficiently forested,
ecologically stable and
Economically Prosperous
Uganda.

Our Mission: To manage Central Forest Reserves
on a sustainable basis and to supply
High Quality Forest- Related Products
and services to Government, local
communities and the private sector.
