BACKGROUND

The portfolio of Luwero Triangle was started immediately after the National Resistance Movement Liberation (NRM) struggle of 1981-1986. The primary responsibility of the programme was to ensure reconstruction of the Luwero Triangle Districts and coordinate payment of war debts claims.

The portfolio currently coordinates three major programmes;

- 1) Luwero – Rwenzori Development Plan (LRDP) a joint comprehensive Development programme that covers the Luwero Triangle and the Rwenzori sub-regions,
- 2) Compensation to Third Parties (AKASIIMO) a programme that attempts to improve the livelihoods of the civilian veterans.
- 3) The Anti-poverty campaign programme against civilian veterans whose major objective is to empower the veterans to engage in income generating activities for sustainable wealth creation.

Through the years since the establishment of the Luwero Triangle Portfolio in the Office of the Prime Minister, many lives have been positively transformed through the above stated Programmes and the following are our major stakeholders:

- The District Local Governments
- The Civilian Veterans
- The Veterans Verification Committee
- Government Departments, Ministries and Agencies
