

UEGCL
Generating for Generations

Congratulations

The Board, Management and Staff
of Uganda Electricity Generation
Company Limited congratulate the
newly elected President

HE. Gen. Yoweri Kaguta Museveni
for another new term 2016-2021.

Long live NRM,
Long live Uganda!!!

H E. GEN. YOWERI KAGUTA MUSEVENI, PRESIDENT OF THE REPUBLIC OF UGANDA

Uganda Electricity Generation Company Limited is committed to ensuring that the existing plants (NPS & KPS) are operated in a prudent manner for production of high quality low cost power, while at the same time ensuring the development of more power plants to increase the generation capacity. This will increase access to electricity and spiral socio-economic development, which will in turn increase the much needed jobs for the youth. This will be achieved through the efficient and timely implementation of the Flagship projects of **Karuma (600 MW) and Isimba (183 MW), Nyagak III (5.5MW) and Muzizi (44.7 MW).**

Furthermore, in line with the **NRM Manifesto (2016-2021)** and the **National Development Plan (2015-2020)**, UEGCL is in the process developing other

small hydropower plants including: **Okulacere 6.5 MW, Latoro 4.2 MW, and Agbinika 2.2 MW** which will further augment the electricity supply and affordability within the country.

In line with ensuring Energy Security, **UEGCL** is committed to exploring alternative sources of energy (energy mix) as a means of diversifying from the current high dependency on hydropower. Alternatives being explored include Geothermal and Solar.

Last but not least, **UEGCL** is gearing up for the efficient and cost effective **Operation and Maintenance** of the new hydropower plants when completed, thus contributing to the competitiveness of Uganda's manufacturing sector through efficient and cost effective Tariffs.
