In 1924, the Mehta Group pioneered the mass production of sugar at Lugazi and have since then sweetened millions of lives. For the last ninety years, Mehta Group has been in the fore front of Uganda's industrial ambitions. We have come a long way since Lugazi sugar to have the first Cable Factory, first Extra Neutral Alcohol Distillery, first Food Grade CO₂ and the first Rose Farm.

The Mehta Group is rendering active support in the development of the Nation by providing employment, developing suppliers, ancillary industries and the out growers through its welfare, medical and educational programs.
